CONTENTS OF VOLUME XXXIII.

NUMBER I.

PAGE

Osteo-Myelitis of the Temporal and Adjacent Bones of the Skull as a Sequel of Otitis Media Suppurativa. By Dr. CHARLES W. RICHARDSON, Washington, D. C. (With one temperature chart) 1

Tubercle-Like Bacilli in the Discharge of Chronic Purulent Otitis. By Dr. A. DE SIMONI, Milan 8

Contribution on Otogenous Diseases of the Brain, Meninges, and Venous Sinuses. By Dr. SUCKSTORFF and Dr. HENRICI, Rostock. Translated by Dr. ARNOLD KNAPP. (Continued from page 461, Vol. XXXI., of these ARCHIVES). With one temperature chart on Plates III. and IV. of Vol. XLIV. of the German Edition 12

On Primary Epithelioma of the Temporal Bone. By Dr. STURM, Rostock. Translated by Dr. ARNOLD KNAPP 30

Tuberculosis of the Ear Ending in Recovery. By Dr. I. HEGETSCHWEILER, Zürich. Translated by Dr. W. S. BRYANT, New York. (*Zeitschrift für Ohrenheilkunde*, Bd. xliii.) . . . 36

On the Pathology of Deafmutism. Report of a Case of Acquired Deafmutism with Obliteration of Tympanum, Aditus, and Antrum. By Dr. HERMANN HÖLZEL, Munich. Translated by Dr. W. S. BRYANT, New York. (*Zeitschrift für Ohrenheilkunde*, Vol. xliii.) 44

Reports of Societies:

1. **Report of the Transactions of the New York Otological Society.** By Dr. ARNOLD KNAPP, Secretary. Meeting of November 24, 1903 53

   BERENS: Plastic operation, 53. LEWIS: Two cases of sinus thrombosis, 54. ARNOLD KNAPP: Two cases of nasal disease with endocranial complications, 57. DENCH: Meningitis after a radical operation, 58; encephalitis, 59. WILSON: Further report upon a tumor of the auditory canal, 59.

137752

PAGE

2. Report of the Transactions of the Section on Otology of the New York Academy of Medicine. Meeting of November 12, 1903 60

KOLLER: Scarlatinal panotitis, 60. RICHARDSON: Osteo-myelitis of the temporal bone (published in full on page 1). *Discussion*, 61.

Report on the Progress of Otology during the First Quarter of the Year 1903. By Dr. ARTHUR HARTMANN. Translated by Dr. ARNOLD KNAPP. 67

(*Continued from vol. xxxii., page 496*)

Nervous apparatus, 67. The nose and naso-pharynx, 69. Soft palate, pharyngeal and mouth cavities, 81.

Book Reviews 84

I.—**Operationen am Ohr.** By Dr. B. HEINE.

II.—**Diseases of the Ear, Nose, and Throat.** By J. J. Kyle, M.D.

NUMBER 2.

Middle-Ear Disease in its Relation to Metastatic Abscess of the Liver and Other Viscera. By S. MACCUEN SMITH, M.D. . 87

A Contribution to the Pathological Anatomy of the Internal Ear and the Auditory Nerve. By Professor PAUL MANASSE, Strassburg, Germany. Abridged Translation by Dr. ADOLPH O. PFINGST, Louisville, Ky. With Plates I. and II., *Zeitschrift f. Ohrenheilk.*, Vol. XLIV.) 98

Contribution to the Pathology and Treatment of Diseases of the Accessory Nasal Cavities. By Dr. F. ROEPKE, of Solingen. Translated by Dr. ARNOLD KNAPP, of New York . . . 112

Reports of Societies:

1. Report of the Transactions of the New York Otological Society. By Dr. ARNOLD KNAPP, Secretary. Meeting of January 26, 1904 118

DUEL: Paroxysmal cough in ear disease, 118. BRANDEGEE: Mastoid symptoms caused by a furuncle in the canal, 119. LEWIS: Hyperpyrexia in tympano-mastoiditis, 120. MCKERNON: Primary jugular-bulb thrombosis, 121.

2. Report of the Transactions of the Section on Otology of the New York Academy of Medicine. Meeting of December 10, 1903 122

KERRISON: A new bone forceps, 122. RICHARDS: A new bone curette, 123. S. MACCUEN SMITH: Middle-ear disease in its relation to metastatic abscess of the liver (published in full, p. 87). *Discussion*, 123.

Meeting of January 14, 1904 128

RICHARDS: Case of epithelioma of the auricle, 128. TOEPLITZ: Neglected education of partially deaf children, 129. GROSZMANN: Difficulties and methods in teaching children who are hard of hearing, 129. *Discussion*, 135.

PAGE

Report on the Progress of Otology during the Second Quarter of the Year 1903. By Dr. ARTHUR HARTMANN. Translated by Dr. ARNOLD KNAPP 140

Anatomy and physiology, 140. General, 142. The nervous apparatus, 170. (*To be concluded.*)

Notices 172

NUMBER 3.

Nasal Fibroid. By HILLIARD WOOD, M.D., Nashville, Tenn. (With two Illustrations on Text-plate I.) 173

Report of a Fatal Case of Chronic Suppurative Otitis with Cholesteatoma in the Drum Cavity and Antrum, Cellulitis of almost the Entire Scalp, Thrombosis of the Transverse Sinus, Cerebral Abscess, and Softening of the Cerebellum. By JOHN GUTTMAN, M.D., New York 176

Report of a Fatal Case of Multiple Otitic Abscesses in the Temporal Lobe, with Remarks. By Dr. C. H. R. JORDAN, New York. (With Text-plates II.–V.) 186

The Ear of the Sperm Whale and Sound Conduction. By Dr. GEORGE BOENNINGHAUS, Breslau. Translated by Dr. W. S. BRYANT, New York 196

Operative Opening of the Mastoid Bone in Otitis Media Purulenta with Extension of the Disease beneath the Mastoid Process. By Dr. FERDINAND LEIMER. Abridged Translation by Dr. JULIUS WOLFF, New York 210

Reports of Societies:

1. **Report of the Transactions of the New York Otological Society.** By Dr. ARNOLD KNAPP, Secretary. Meeting of March 22, 1904 217

2. **Report of the Transactions of the Section on Otology of the New York Academy of Medicine.** Meetings of February 11 and March 10, 1904 225

Report on the Progress in Otology during the Second Quarter of the Year 1903. By Dr. ARTHUR HARTMANN, Berlin. Translated by Dr. ARNOLD KNAPP. (*Continued from page 171*) 253

Nose and naso-pharynx, 253. The soft palate, pharynx, and mouth cavity, 264.

NUMBER 4.

PAGE

Report of a Fatal Case of Brain Abscess of Otitic Origin. By GORHAM BACON, M.D. (With two Photographs on Text-Plate VI.) 269

Report of a Fatal Case of Latent Temporo-Sphenoidal Abscess of Otitic Origin, Followed by Multiple Secondary Cerebral Abscesses. By ALICE E. WAKEFIELD, M.D. (With four Figures on Text-Plates VII. and VIII.) 273

Remarks on a Double Cerebellar Abscess, Operations, and Recovery, Reported before the New York Academy of Medicine, on January 8, 1903. By WELLS P. EAGLETON, of Newark, N. J. 283

Affections of the Facial Nerve in Diseases of the Ear. By Dr. C. ZIMMERMANN, Milwaukee, Wis. 290

Reports of Societies:

1. **Report of the Transactions of the New York Otological Society.** By Dr. ARNOLD KNAPP, Secretary. Meeting of May 24, 1904 304

2. **Report of the Transactions of the Section on Otology of the New York Academy of Medicine.** Meeting of April 14, 1904 311

BRYANT: Long-handled gouge, 311. TOEPLITZ: Case of extradural abscess simulating cerebellar abscess; operation; recovery, 311. BERENS: Radical operation for epithelioma of middle ear, 314. DENCH: Fibrosarcoma of middle ear, 314; sarcoma of middle ear, 315. WHITING: A contribution to the surgical pathology of mastoiditis, 317; *Discussion*, 317.

Meeting of May 12, 1904 318

RICHARDS: Case of lateral sinus and jugular thrombosis, 318; *Discussion*, 320. GRUENING: Section of a jugular vein, 323. BACON: Report of a fatal case of brain abscess of otitic origin (p. 269), 324.

Report on the Progress in Otology during the Third Quarter of the Year 1903. By Dr. ARTHUR HARTMANN. Translated by Dr. ARNOLD KNAPP 325

Anatomy, 325. Physiology, 329. General, 333. External ear, 344. Middle ear, 347.

(To be concluded.)

NUMBER 5.

PAGE

A Case of Thrombosis of the Jugular Bulb—Operation—Recovery. By CARL KOLLER, M.D. 363

A Case of Pulmonary Tuberculosis, with Interstitial Neuritis of Both Cochlear Nerves, together with Persistent Embryonic Adhesions in the Scala Tympani. By Prof. SIEBENMANN, of Bâle. Translated by Dr. W. S. BRYANT, New York. (*Zeitschrift für Ohrenheilkunde*, Vol. XLIII., p. 215; with two plates) 368

On the Radical Operation for Chronic Empyema of the Frontal Sinus According to Killian. By Dr. ESCHWEILER, Bonn. Translated by Dr. ARNOLD KNAPP 386

On the Operative Treatment of Otitic Intracranial Complications. By Prof. DENKER, of Erlangen. Abridged Translation by Dr. C. H. R. JORDAN, New York. (With Plate I., *Zeitschr. f. Ohrenheilk.*, Vol. XLIII.) 409

Otitic Brain Abscess. By Prof. V. UCHERMANN, Kristiania. Abridged Translation by ADOLPH O. PFINGST, M.D., Louisville, Ky. 416

A Phonographic Acoumeter. By W. SOHIER BRYANT, M.D., New York. (With five text-cuts) 438

Report on the Progress in Otology during the Third Quarter of the Year 1903. By Dr. ARTHUR HARTMANN. Translated by Dr. ARNOLD KNAPP. (*Concluded from page 361*) . . 444

Middle ear, 444; Nervous apparatus, 445; Nose and nasopharynx, 446; Soft palate, pharyngeal and buccal cavities, 462.

Book Reviews 467

III.—**Bericht über die Leistungen in der Ohrenheilkunde.** Von Dr. BLAU.

IV.—**Handbuch der Ohrenheilkunde.** Von Prof. KIRCHNER.

V.—**Handatlas der Operationen am Schlaefenbein.** Von Prof. GERBER.

VI.—**Otitis media der Säuglinge: Bakteriologische und anatomische Studien.** Von Dr. H. PREYSING.

VII.—**Die Otosclerose.** By Dr. A. DENKER.

NUMBER 6.

PAGE

Some Points Respecting the Surgical Anatomy of the Facial Nerve. By H. A. ALDERTON, M.D., of Brooklyn, N. Y. . 471

A Case of Chronic Purulent Otitis with Cholesteatoma and Numerous Endocranial Complications—Operation—Recovery—With Remarks upon the Diagnostic Value of Lumbar Puncture. By Dr. ARNOLD KNAPP, New York . . . 478

Three Cases of Tumor of the Ear. By Dr. GERBER, Königsberg. Translated by Dr. ARNOLD KNAPP. (With two illustrations on Plates I. and II., *Zeitschrift f. Ohrenheilk.*, Vol. XLV., No. 1.) 482

Angina and Phlegmonous Pharyngitis Followed by Purulent Thrombosis of the Cavernous Sinus and Purulent Basilar Meningitis. By Dr. CARL TOLLENS. Translated from *Zeitschr. f. Ohrenheilk.*, Vol. XLIV., p. 225 487

Two Cases of Abscess of the Temporal Lobe of the Brain. By Dr. F. VOSS, Riga. Translated from *Zeitschr. f. Ohrenheilk.*, Vol. XLIV., p. 275 491

On Otitic Pyæmia. By Dr. RICHARD FREYTAG, Magdeburg. Translated by Dr. ARNOLD KNAPP. (*Zeitschrift f. Ohrenheilk.*, Vol. XLV., p. 127) 495

Reports of Societies:

1. **Report of the Transactions of the German Otological Society.** By Dr. ARTHUR HARTMANN. Meetings held in Berlin on May 20 and 21, 1904 504

SIEBENMANN: Report on the anatomy of congenital deafmutism, 504. HABERMANN: Clinical and pathological examinations of the ears of cretins, 506. SIEBENMANN: Microscopic changes in the ears of a congenital deaf-mute, 506. ALEXANDER: Microscopic examination of the ear of a deaf-mute, 507. KATZ: Specimens from cases of deafmutism, 507. ALEXANDER: On the ears of animals with congenital anomalies of the labyrinth, 508. FREY and HAMMERSCHLAG: Rotating experiments in deaf-mutes, 508. HAMMERSCHLAG: Relation between hereditary deafness and consanguinity of parents, 508. FREY: On intensity of knee-jerk in deaf-mutes, 508. MANN: Movement of blood in the internal jugular vein, 509. WINKLER: Operations on the mastoid process with consecutive meatoplasty, 509; Osteoplastic exposure of the frontal sinus, 510. HINSBERG: Fistula of an abnormal Steno's duct, 512. DENKER: The Eustachian tube of the ant-eater, 512. ZIMMERMANN: On sound transmission, 513. QUIX: Determination of hearing with the aid of tuning-forks, 513. GÖRKE: Middle-ear exudates found at autopsies, 513. BLOCH: Dysthyric deafness, 514. KOBRACK: Infection after adenectomy, 515. KOBEL: Otitic brain abscess, 515. ALT: Relation between purulent otitis and epidemic and tuberculous meningitis, 516. WANNER: Investigations on hearing of feeble-minded children, 516. PANSE: Several simple experiments in acoustics, 517. EICKEN: Local anæsthesia of the external auditory canal, 518.

PAGE

2. **Report of the Transactions of the Section on Otology of the New York Academy of Medicine.** Meeting of October 13, 1904 519

HASKINS: Case of chronic purulent otitis with retention symptoms, 519; Presentation of two foreign bodies removed from the ear, 520. ALDERTON: Specimen of temporal bone showing anomaly of the jugular bulb, 520; Some points respecting the surgical anatomy of the facial nerve (printed in full, page 471); *Discussion:* 520.

Report on the Progress in Otology during the Fourth Quarter of the Year 1903. By Dr. ARTHUR HARTMANN. Translated by Dr. ARNOLD KNAPP 523

Anatomy, 523. Physiology, 525. General, 529. External ear, 536. Middle ear, 537. (*To be concluded.*)

Index to Authors and Subjects of Vol. XXXIII. 547
